I. Overview

1. The financial situation as at 31 March 2018 can be summarized in the following major points:

(a) The regular budget gross expenditure spending rate of 24.8 per cent is a slightly lower level than that of the same period in the previous biennium of 26.5 per cent;

(b) The operational budget expenditures amounted to €4.1 million in the reporting period;

(c) The expenditure level for buildings management amounted to €13.5 million in accordance with the prevailing workplan;

(d) The collection rate of 2018 assessed contributions as at 31 March 2018 was 30.3 per cent, compared to the 2017 and 2016 rates of 26.1 and 32.6 per cent, respectively;

(e) The collection rate of prior years' arrears, as compared to the current year's assessments, was 4.1 per cent. The rate as at 31 March 2017 and 2016, as compared to the assessments of those years, was 7.2 and 1.8 per cent, respectively;

(f) Outstanding assessed contributions amounted to €135.5 million, as shown in the annex to the present document (including arrears of €69.1 million by the United States of America, and €2.1 million by the former Yugoslavia). The outstanding amounts as at 31 March 2017 and 2016 were €136.6 million and €148.8 million, respectively;

(g) The Working Capital Fund was at the level of €7,423,030. However, an amount of €388,620 was outstanding as at 31 March 2018;

(h) A conference room paper (PBC.34/CRP.4) will be provided on the status of assessed contributions and voting rights, updated to 7 May 2018.

II. Regular and operational budgets, 2018–2019

A. Regular budget

2. The implementation of the biennial regular budget started with the establishment of an initial release threshold by budget line and/or major object of expenditure to facilitate sufficient funding at the beginning of the biennium and to facilitate activities for each required budget category.

3. Therefore, allotments of €61.0 million were issued at the onset of the biennium. The initial release consisted of €42.5 million for staff costs and €18.5 million for all other expenditure categories.

4. As at 31 March 2018, regular budget expenditures totalled €17.0 million which represents 24.8 per cent of the gross expenditure budget for 2018. These figures are slightly lower than those of the previous biennium, where, as at 31 March 2016, regular budget expenditures amounted to €18.1 million with a 26.5 per cent utilization rate of the gross expenditure budget.

B. Operational budget

5. Allotments of €17.1 million were issued at the beginning of 2018, representing 93.2 per cent of the approved operational budget estimates.

6. As at 31 March 2018, operational budget expenditures amounted to €4.1, which is slightly higher than those for the similar reporting period in the previous biennium, which amounted to €3.8 million.

7. Technical cooperation activities in the first quarter of 2018 reached the level of \$72.2 million, including commitments. Income from support costs amounted to €5.8 million as at 31 March 2018.

C. Buildings management

8. Allotments of €24.4 million were issued for 2018 at the start of the biennium. The buildings management budget is being implemented in accordance with the prevailing workplan.

9. Expenditures as at 31 March 2018 amounted to €13.5, which is almost equal to the €13.4 million spent in the same period in the previous biennium. This expenditure represents 48.6 per cent of the buildings management gross expenditure biennial budget and compares well with the 49.4 per cent spent in the same period in the previous biennium.

III. Prioritizations and efficiencies identified to offset financial impact on member states.

10. The UNIDO Programme and Budgets for 2018–2019 included a 0.772 per cent average rate of net cost increases per annum. This rate is overly conservative, particularly given that the inflation rate for 2018, as reported by the Austrian Institute for Economic Research, is projected at 1.9 per cent per annum. Further, the average inflation rates for 2018 in the emerging markets and developing economies, where UNIDO operates, is projected at 4.4 per cent per annum.

11. However, in accordance with General Conference decision GC.17/Dec.18, paragraph (f), the following section provides a list of priority areas for the efficiencies to be identified and/or implemented with the goal of offsetting the financial impact on Member States of recosting and new expenditure proposals in the budget for 2018–2019:

(a) Management review of the utilization of scarce regular and operational budget resources, to ensure their efficient and innovative utilization through the building of stronger synergies between Headquarters and field locations, including improvements in internal coordination;

(b) Management pursuit of reductions in the overall travel expenditures, inter alia, through concerted efforts aimed at the use of information and communications technology instead of physical travel, wherever possible;

(c) Full implementation of the provisions of the Programme Support Cost Recovery Policy (DGB/2016/14 of 23 December 2016) in the preparation and implementation of projects, to guarantee that programme costs is approaching full cost recovery, which would eliminate any prospective subsidization from the regular budget.

IV. Assessed contributions

A. Collections

12. A total of 41 Member States, including 11 least developed countries (LDCs), made full payments. 51 Member States, seven of which are LDCs, made partial payments and/or their adjustments were credited towards their assessed contributions

for the year 2018. The collections in the period from January to March 2018, broken down by List of States, are shown in table 1.

V. Voting rights

14. As indicated in the annex to the present document, the voting rights of 43 Member States had been suspended as at 31 March 2018, in accordance with Article 5.2 of the Constitution and financial regulation 5.5 (b). In comparison, the voting rights of 45 countries had been suspended at the same time last year. The status of voting rights in respect of the various policymaking organs is shown in table 3.

15. In order to restore their voting rights for 2018, these Member States must pay their full contributions for 2015 and prior years, including advances to the Working Capital Fund, as well as a partial contribution for 2016. The minimum total amount that would have to be paid by these Member States is €6,530,290.

VI. Multi-year payment plans

16. Table 4 shows, in summary form, the current status of those Member States that have entered into payment plan arrangements to settle outstanding assessed contributions. The Secretariat notes with appreciation and recognizes the considerable efforts made by all those Member States that have honoured their commitments and obligations as stipulated in their respective payment plans. Other Member States in arrears are encouraged to consider submitting payment plans to steadily reduce their outstanding assessed contributions. Recently, a new payment plan was signed for five years with the Bolivarian Republic of Venezuela. The agreement will enter into force as soon as the first instalment is received from the Government.
