Date: Wednesday, 14 July 2021 (9-11 a.m.)

Agenda item 12: Inclusive and sustainable development in middle-income countries

Indonesia commends the work plan of UNIDO with regards to the Partnering with Middle-Income Countries (MIC) 2021 - 2025 to support the achievement of the Sustainable Development Goals among Middle-Income Countries that mostly experience significantly increased challenges due to the COVID-19.

The Government of Indonesia welcomes UNIDO's regional dimension approach to ensure the project's adaptability amidst the regional challenges.

We also consider that innovative financing and global environmental funds are the most relevant funding scheme at this juncture. Furthermore, the Indonesian Government extends its hope to play an active role in the South-South and Triangular Industrial Cooperation (SSTIC) by engaging Indonesian experts in the related programmes in the lower-middle-income countries.

We would like to add that the Indonesian Government is planning organizing Regional Conference on Industrial Development: Industry 4.0 this year. The conference is expected to boost intra-regional cooperation in sharing best practices and experiences as well as technical expertise in industry 4.0.

Thank you, Madam President.
