I.	Integrated financial performance report		7
II.	Status of assessed contributions to the UNIDO regular budget		9

For reasons of economy, this document has been printed in a limited number. Delegates are kindly requested to bring their copies of documents to meetings.

I. OVERVIEW

1. The financial situation as at 31 March 2000 can be summarized in the following major points:

(a) The regular budget is being implemented with an increased initial allocation; expenditure for the first quarter amounted to 32 per cent of the appropriations for 2000;

(b) The operational budget recorded a surplus of \$0.4 million and the reserve level was increased to \$2 million;

(c) The level of regular budget cash resources (including the Working Capital Fund and unutilized/unencumbered balances of appropriations) was \$21.7 million. As compared to this, the cash balance as at 31 March 1999 and 1998 was \$25.3 million and \$27.1 million respectively;

(d) The collection rate of 2000 assessed contributions was 35.9 per cent and was unfavourable compared to the 1999 and 1998 rates of 47.4 and 51 per cent, respectively. One reason for the lower collections during the first quarter of 2000 is that some major contributors have not yet paid, or have only made partial payments. The collection rate is, however, expected to improve as soon as already-announced larger contributions are received;

(e) The collection rate of prior years' arrears, as compared to the current year's assessments, was 2.7 per cent. (The rate, however, as compared to prior years' arrears, excluding the amount owed by the United States, was 3.2 per cent.) The rates as at 31 March 1999 and 1998, as compared to the assessments of those years, were 1.2 and 2.9 per cent, respectively.

(f) Outstanding contributions amounted to \$141.2 million (including \$61.8 million owed by the United States of America). The outstanding amounts as at 31 March 1999 and 1998 were \$134.8 million and \$126 million, respectively (revalued at the March 2000 rate of exchange);

(g) The Working Capital Fund is at the level of \$6,610,000; however, an amount of \$227,735 is still outstanding;

(h) Since the issuance of document GC.8/17, there has been no significant progress on the implementations of recommendations of the discussion group on timely payment of assessed contributions;

(i) Unutilized/unencumbered balances of appropriations amounting to \$4,405,323 arising from the

adoption of resolution GC.8/Res.4 by the General Conference are available for the implementation of the integrated programmes, particularly for least developed countries.

2. The integrated financial performance report as of 31 March 2000 is contained in annex I to the present document. This report was introduced in 1999 as an internal management tool that summarizes major organizational performance indicators.

II. STATUS OF THE REGULAR AND OPERATIONAL BUDGETS

3. Regular budget implementation of the approved programme and budgets 2000-2001 started as planned. In view of the expected collection rate of assessed contributions of some 95 per cent during the year (both for current and prior years), as well as the healthy cash position of the Organization at the beginning of 2000, an average release of 91 per cent of the appropriations for 2000 under the regular budget, excluding Buildings Management Service (BMS), was approved. This included 100 per cent release for staff costs, the Regular Programme of Technical Cooperation and information technology; and an average of 70 per cent under consultants, travel, meetings and operating costs. This pattern compares favourably with the start of the 1998-1999 biennium, whereby after the first three months of 1998 only 84 per cent of the appropriations were released due to the requirements of the staff separation programme and the poor cash position of UNIDO.

4. The BMS gross appropriation was released at the level of 85 per cent. Significant savings are anticipated in utilities and maintenance costs. While the level of service provided by BMS will be as planned, the related costs are expected to be lower by 15 per cent.

5. Expenditures during the period 1 January to 31 March 2000 amounted to \$26.5 million under the regular budget. This amount corresponds to 32 per cent of the total appropriation for 2000. As compared to this, the percentages in 1999 and 1998 were 23 and 16 per cent respectively. The current value represents a smooth budget implementation with a lesser risk of delaying or non-implementing approved programmes.

6. In order to improve the level of reserve by the end of 2000, the initial allocation for the operational budget was limited to some 63 per cent of the approved estimate. With \$26.5 million delivery of technical cooperation projects as at 31 March 2000, the income for the first quarter amounted to \$3.3 million. Expenditures were recorded at the level of 2.9 million, leading to a surplus

of \$0.4 million for the same period. The level of reserve increased from \$1.6 million to \$2 million as at 31 March 2000.

III. STATUS OF ASSESSED CONTRIBUTIONS

A. Collections

7. A total of 28 Member States, including two least developed countries, have made full payments and 10 Member States have made partial payments of their assessed contributions for the year 2000.

8. The collections in the period from January to March 2000, broken down by Lists of States, are shown in table 1.

B. Outstanding contributions

9. The detailed status of assessed contributions outstanding as at 31 March 2000 is contained in annex II to the present document. The charts provide information on outstanding contributions as at 31 March 2000, and at 31 March 1999 and 31 March 1998, which have been revalued for comparison.

10. The scale of assessment and outstanding contributions as at 31 March 2000, broken down by Lists of States, are shown in table 2.

Table 1. Collections, January - March 2000
(in millions of US dollars)

<i>Lists of States*</i>	<i>Current year</i>	<i>Prior years</i>	<i>Total</i>
A	1.6	0.1	1.7

Total	100%	39.38	101.86	141.24

* As contained in document GC.8/11/Rev.2.

IV. SUSPENSION OF VOTING RIGHTS OWING TO NON-PAYMENT OF CONTRIBUTIONS

11. As indicated in annex II to the present document, the voting rights of 67 Member States had been suspended as at 31 March 2000 in accordance with Article 5.2 of the Constitution and financial regulation 5.5(b), as shown in table 3.

**Table 3. Suspension of voting rights,
as at 31 March 2000**

<i>Members of</i>	<i>Number of Member States</i>		
	<i>2000</i>	<i>1999</i>	<i>1998</i>
General Conference	67	70	68
Industrial Development Board	7	8	8
Programme and Budget Committee	4	6	5

12. In order to restore their voting rights for the remainder of 2000, these Member States must pay their full contributions for 1997 and prior years, including advances to the Working Capital Fund, as well as a partial contribution for 1998. The minimum total amount that would have to be paid by these Member States is \$23,937,208.

V. IMPLEMENTATION OF RECOMMEN- DATIONS OF DISCUSSION GROUP ON TIMELY PAYMENT OF ASSESSED CONTRIBUTIONS

13. Detailed information was provided in document GC.8/17, chapter IV, on the implementation of the measures recommended by the open-ended discussion group on timely payment of assessed contributions. Since that time no further development has taken place, and no payment under the plan has been received to date. Letters were again sent in December 1999 reminding Member States of their obligations and of the possibility to settle arrears through payment plans, as well as of incentives to encourage early payment of contributions. Furthermore, informal consultations were held on an individual basis with a number of Member States, as well as with various regional groups.

A. Arrears owed by the United States of America

14. As reported in documents GC.8/17 of 29 September 1999 and GC.8/CRP.4 of 26 November 1999, the United States owed \$62,113,175 against assessed contributions and \$849,107 against the Tax Reimbursement Agreement. Since that time, the United States has requested that its share of the unutilized/unencumbered balances of appropriations amounting to \$334,624 be credited against its outstanding contributions. With the application of this credit, the current status of the amounts owed to UNIDO is as follows:

Assessed contributions for 1994 to 1996	\$61,778,551
Income taxes (under the Tax Reimbursement Agreement)	\$ 849,107

butions or set aside for special purposes are: Belgium, Canada, Colombia, Denmark, Germany, India, Iran

B. Incentives for early payment

15. Incentives for early payment were also discussed in document GC.8/17. As mentioned in paragraph 16 of that document, a report will be issued to the sixteenth session of the Programme and Budget Committee on any improvement in the pattern of payments by Member States. That document may indicate the extent to which the incentive measures have motivated them to pay their assessed contributions earlier as compared with previous years. It will also report on the experience of other United Nations organizations that have adopted incentive schemes and payment plans.

16. Pursuant to decision GC.8/Dec.10, interest income in excess of the budgetary estimates for 1999 in the amount of \$97,385 is available for distribution. This amount will either be distributed to eligible Member States in accordance with the "S curve" formula or utilized for purposes specified by the eligible Member States.

VI. UNUTILIZED/UNENCUMBERED BALANCES OF APPROPRIATIONS FOR 1992-1993 AND 1996-1997

A. Amount available for the integrated programmes

17. As mandated by the General Conference in its resolution GC.8/Res.4, the Director-General established a special account with effect from 1 January 2000 and transferred the full amount of \$5,622,412, as shown in document GC.8/CRP.5/Add.1 (i.e. the amount to which Member States were eligible and the amount that was due at a later date). All requests to surrender the balances (e.g. refunds, applications against assessed contributions and special purposes) received from eligible Member States by 31 March 2000 were met from this account. Table 4 summarizes the status of the special account as at 31 March 2000, and shows the total amount available for the integrated programmes, particularly for least developed countries.

18. Member States and the former Member States that requested that their share to which they were eligible be refunded, applied against assessed contri-

(Islamic Republic of), Israel, Malaysia, Mexico, Norway, Philippines, Saudi Arabia, Slovakia, Turkey, United States of America.

Table 4. Status of special account, as at 31 March 2000

Amount available as of 1 January 2000	\$5,622,412
Requests received for refunds, applications against assessed contributions and for special purposes (14 Member States and 2 former Member States)	<u>\$1,373,053</u>
Amount available in the special account as at 31 March 2000	\$4,249,359
Additional amount renounced by Australia (due from previous credits, and adjustments to the WCF)	<u>\$ 155,964</u>
Total amount available for the integrated programmes	<u>\$4,405,323</u>

19. The total amount (\$4,405,323) available in the special account consists of: \$1,624,251 from six Member States (China, Japan, Morocco, Netherlands, Republic of Korea, United Kingdom of Great Britain and Northern Ireland—these Member States explicitly renounced their shares); \$259,113 (\$103,149, as in GC.8/CRP.5/Add.1, and the additional amount of \$155,964) renounced by Australia; and \$2,521,959 from the remaining 148 Member States from whom **no** request for surrender was received by the deadline established by the General Conference (i.e. 31 March 2000).

20. Since the above funds are considered to be voluntary contributions, financial rule 106.21 requires that support costs be charged at the rate of reimbursement to executing agencies currently applied by UNDP (i.e. 13 per cent), unless the estimated actual costs of programme support and administrative services justify a different rate. As most of the funds are made available in a programme form, i.e. UNIDO can allocate the funds and they will be utilized in the context of large integrated programmes, the cost of obtaining, programming and using the funds is expected to be lower than the normal voluntary contributions for individual projects. Therefore, the Director-General has decided to apply a rate of 6.5 per cent to the funds (i.e. 50 per cent of the normal rate).

21. As requested by the General Conference, the Director-General will report to the Industrial Development Board at its twenty-third session, through the Programme and Budget Committee, on the utilization

of the above amount that became available for the integrated programmes.

VII. IMPLEMENTATION OF A NEW FINANCIAL SYSTEM

22. During the deliberations on the implications of the euro for UNIDO, it was clear that a new financial system would be required during 2001 to ensure that UNIDO is fully prepared to use the euro as a single currency (for budgeting, assessment, accounting and reporting) by 1 January 2002 for the regular and operational budgets, and United States dollars (for technical cooperation activities). Furthermore, an Organization-wide needs assessment clearly showed that better financial and information computer systems were required to enhance and support efficiently and effectively the Organization's requirements.

23. An international competitive bidding exercise was carried out in early 2000 to determine the best and most cost-effective solution for UNIDO needs, which resulted in the selection of a new financial performance control system for UNIDO at a cost of about \$1.1 million. The selected contractor has recently successfully completed the installation of a new accounting system at the International Atomic Energy Agency. The implementation work at UNIDO is expected to commence shortly and it is expected that part of the new system will be in place by the end of 2000.

VIII. ACTION REQUIRED OF THE BOARD

24. The Industrial Development Board may wish to consider adopting the following draft decision:

“The Industrial Development Board:

“(a) Takes note of the information provided in document IDB.22/8;

“(b) Also takes note of the information contained in paragraph 16 of document IDB.22/8 concerning the availability of interest income for distribution;

“(c) Further takes note of the total amount (\$4,405,323) that became available for the purpose of funding the implementation of the integrated programmes, particularly for least developed countries, and the requirement to report to the twenty-third session of the Board, through the Programme and Budget Committee, on the utilization of these funds (IDB.22/8, chap. VI);

“(d) Urges those Member States that have not yet paid their assessed contributions, including advances to the Working Capital Fund and prior years' arrears, to do so without delay.”

Annex I

INTEGRATED FINANCIAL PERFORMANCE REPORT, AS AT 31 MARCH 2000

(in millions of US dollars)

<i>Category</i>	<i>Information</i>	<i>31 December 1999*</i>	<i>31 March 2000</i>

	(j) Estimated OB reserve at year end	\$1.6 (actual)	\$2.6
4. Cash flow	(a) Assessed contributions: Current year	\$54.5 (82.9%)	\$22.1 (35.9%)
	(b) Prior years	\$10.3 (16.9%)	\$1.6 (2.7%)
	(c) Expected year-end cash balance: RB (incl. WCF)	\$12.9	\$7.5
	(d) OB	\$2.1	\$3.0
5. RB status and projections*	(a) PADs issued against appropriations (\$82 million)	\$153.5 (92.8%)	\$73.7 (90%)
	(b) Expenditures to date against PAD	\$149.4 (97.3%)	\$26.5 (36%)
	(c) Estimated expenditures against PAD	N.A.	\$77 (104%)
	(d) Estimated unutilized balance of appropriations	\$16.1 (9.7%)	\$5.0 (6%)
6. Staffing	(a) Professional vacancy (number of posts and percentage)	60.5 (20.4%)	57.5 (19.7%)
	(b) GS vacancy	40.5 (9.3%)	44.0 (10.1%)
	(c) Total vacancy	101 (13.8%)	101.5 (14%)
	(d) Possible number of external recruitment (P)	21	22 ongoing
	(e) Possible number of external recruitment (GS)	0	0

* December 1999 figures are actual figures; block 5 shows biennial figures.

Notes to integrated financial performance report for March 2000

(Data for December 1999 included for reference)

- 1 (c) **Integrated programmes approved by Executive Board.** No new approvals in 2000.
- 2 (a) **Net cumulative approval of projects for March 2000** was \$17.9 million, an improvement compared to 1999.
- 2 (c) **PADs for integrated programmes:** In addition to \$1.2 million, the issuance of PADs is being considered for the allocation of \$4.4 million from unutilized balances for 1992-1993 and 1996-1997.
- 2 (d) **Estimated donor approval for 2000** is \$90-\$100 million, an improvement from 1999. Drop in UNDP funding will be more than compensated by increases in IDF and trust fund contributions.
- 3 (a) **Estimated TC implementation in 2000** is \$81.5 million, roughly at the same level as for 1998 and 1999. Over 40 per cent would be related to Montreal Protocol (MP) projects. It is to be noted that since January 1998, the Organization has experienced a net reduction of 130 staff members, or 17 per cent, yet TC delivery will remain at the same level, reflecting productivity improvement and staff dedication. However, it is possible that activities under the global forum function were negatively affected during 1998-1999—a situation which will be reviewed.
- 3 (b) **Actual TC delivery** was \$26.5 million, and this is lower than March 1999 and March 1998 figures by some \$6 million. The main drop was observed in MP projects, but it is expected that implementation of MP projects will improve in the coming months.
- 3 (g) and 3 (j) **Estimated OB income in 2000 and estimated OB reserve at year end** are \$10.1 million and \$2.6 million respectively. To increase OB reserve to the target of \$2.6 million, we have to contain OB expenditures including staff costs.
- 4 (a) **Collection of assessed contributions** for current year was 36 per cent and 2.7 per cent for previous years. The collection rate for 2000 is expected to improve and this is reflected in the higher amount of PAD issued at the beginning of 2000. See 5 (a) below.
- 4 (c) **Expected RB cash balance** at year end is \$7.5 million, which is sufficient to cope with cash requirements early in 2001. The reduction in the balance compared to 1999 is due to expected disbursement of \$3 million for integrated programmes in 2000 (see 2 (c) above).
- 5 (a) **Issuance of PADs against 2000 appropriations** was at the rate of 90 per cent, reflecting an improved cash flow projection.
- 5 (d) **Estimated unutilized balance of appropriations at the end of 2000** is 6 per cent, compared to some 10 per cent for 1998-1999, indicating a higher rate of implementation of approved programmes in 2000.
- 6 (a) **Staffing:** The number of vacant posts at 31 March remained high (101, or 14 per cent). During 1999, the Organization experienced a net reduction of 51 staff members (8.2 per cent).

Notes

(p) Partial payment

1. RoE—Rate of Exchange: According to financial rule 110.7, all UNIDO transactions, in currencies other than United States dollars, shall be recorded at the official rate of exchange established by the United Nations between the dollar and the other currencies.
2. Voting rights of 67 Member States have been suspended.
3. In accordance with General Conference resolution GC/S.1/Res.1, the Federal Republic of Yugoslavia (Serbia and Montenegro) cannot continue automatically the membership of the former Socialist Federal Republic of Yugoslavia in UNIDO.
4. Member State of UNIDO until 31 December 1996.
