I. OVERVIEW

1. The financial situation as at 30 June 2004 can be summarized in the following major points:

(a) The regular budget is being implemented with an initial allocation of 91 per cent of the 2004 appropriations. The expenditure for the first six months amounted to 43.9 per cent of the 2004 appropriations as compared with 47.6 per cent during 2002, the first year of the previous biennium;

(b) The operational budget recorded a surplus of €1.7 million during the first six months of 2004; therefore the level of the operational budget reserve increased from €3.1 million as at 1 January 2004 to €4.8 million as at 30 June 2004;

(c) The expenditure level for buildings management for the first six months amounted to about 45.2 per cent of the 2004 appropriations, which is lower than that for the same period of 2002 (54.4 per cent) due to the delayed start of the asbestos removal work;

(d) The level of regular budget cash resources (including the Working Capital Fund) was €36.5 million. As compared to this, the cash balance as at 30 June 2003 and June 2002 was €44.5 million and €26.9 million, respectively;

(e) The collection rate of 2004 assessed contributions was 65.6 per cent, as compared to June 2003 and June 2002 of 78.7 and 56.4 per cent, respectively;

(f) The collection rate of prior years' arrears, as compared to the current year's assessments, was 1.8 per cent. The rate as at 30 June 2003 and 2002, as compared to the assessments of those years, was 1.6 and 3.2 per cent, respectively;

(g) Outstanding contributions amounted to €137.1 million, as shown in annex I to the present document (including arrears of €69.2 million by the United States of America, and €2.1 million by the former Yugoslavia). The outstanding amounts as at 30 June 2003 and 2002 were €124.5 million and €138.2 million, respectively;

(h) The Working Capital Fund was at the level of €7,423,030; however, an amount of €95,604 was outstanding as at 30 June 2004;

(i) Unencumbered balances of appropriations and income from new Member States, amounting to €4,441,022, was distributed to eligible Member States, as mentioned in document IDB.28/10. The amount of €1.3 million thereof, renounced on a voluntary basis, is

being implemented as specified. According to General Conference decision GC.10/Dec.11, the amount of €436,457 is being utilized for integrated programmes or country service frameworks.

II. REGULAR AND OPERATIONAL BUDGETS, 2004-2005

2. As stated in document IDB.28/10, the implementation of the approved programme and budgets commenced as planned. In view of the reduced approval level of the gross regular budget, as well as the expected collection rate of the current year's assessed contributions of some 93 per cent and the healthy cash position of the Organization at the beginning of 2004, an average allotment level of some 91 per cent of the originally planned gross expenditures is envisaged for 2004, including UNIDO's share of Buildings Management Services. Except for the Regular Programme of Technical Cooperation, reduced allotment levels will be necessary under each object of expenditure.

3. Regular budget expenditures during the period 1 January to 30 June 2004 amounted to €32.3 million. This amount corresponds to 43.9 per cent of the total appropriation for 2004. In the first year (i.e. 2002) of the preceding biennium, an implementation rate of 47.6 per cent was recorded. The current value represents a smooth budget implementation, however, with due regard to the reduction of appropriations, as approved by the General Conference.

4. Expenditures/delivery of technical cooperation activities as at 30 June 2004 amounted to \$62.6 million. As compared to this, delivery as at 30 June 2003 and 2002 was \$58.3 and \$50.9 million, respectively. As can be seen, delivery in 2004 is higher by some \$11.7 million, as compared to the first year of the previous biennium and about \$4.3 million higher than that of the second. Thanks to the establishment of a special account for RPTC in the 2002-2003 biennium, the delivery of such resources is spread more evenly over the biennium. Every effort is being made to achieve the current year delivery target of some \$95 million.

5. Operational budget income from support cost earned from technical cooperation delivery and other income amounted to €5.9 million for the first half of 2004. Expenditure (staff costs and field office costs) for the same period amounted to €4.2 million, leading to a surplus of €1.7 million during the first six months of 2004. Accordingly, the level of the operating reserve increased from €3.1 million as at 1 January 2004 to €4.8 million as at 30 June 2004.

6. The Buildings Management Service budget is being implemented according to the prevailing work plan. Expenditure for the period 1 January to 30 June 2004 amounted to €10.7 million, which represents some 45.2 per cent of the 2004 appropriations. As compared to this, expenditure in 2002—the first year of the previous biennium—amounted to some 54.4 per cent of the appropriations for that year. The reason for the lower implementation rate this year lies in the delayed start of the asbestos removal work.

III. SPECIAL ACCOUNTS FOR THE REGULAR PROGRAMME OF TECHNICAL COOPERATION AND BUILDINGS MANAGEMENT SERVICE

7. At its ninth session, the General Conference established special accounts for certain activities under Buildings Management Services and for the Regular Programme of Technical Cooperation (RPTC) that would not be subject to financial regulations 4.2 (b) and 4.2 (c) (GC.9/Dec.14). In decision IDB.24/Dec.7, the Board requested the Director-General to submit to the General Conference at the end of each biennium, through the Industrial Development Board, a report on the status and balance of those accounts.

8. Statements on the special accounts are included in the report of the External Auditor (IDB.29/3-PBC.20/3, annex III and note 2 (g)), and information on the status of the special account for RPTC was also provided in document IDB.28/10. Up-to-date information will be submitted to the Committee, and through the Board to the General Conference, at its twenty-first session, by which time a more accurate picture should emerge on the balance of the accounts, particularly in terms of the utilization of the amounts currently obligated.

IV. ASSESSED CONTRIBUTIONS

A. Collections

9. A total of 55 Member States, including eight least developed countries (LDCs), have made full payments and 35 Member States, 10 of which are LDCs, have made partial payments and/or their adjustments have been credited towards their assessed contributions for the year 2004. The collections in the period from January to June 2004, broken down by List of States, are shown in table 1.

12. In order to restore their voting rights for the remainder of 2004, these Member States must pay their full contributions for 2001 and prior years, including advances to the Working Capital Fund, as well as a partial contribution for 2002. The minimum total amount that would have to be paid by these Member States is €24,904,520.

VI. IMPLEMENTATION OF RECOMMENDATIONS OF GROUP ON TIMELY PAYMENTS

13. Table 4 shows, in summary form, the current status of those Member States that have entered into payment plan arrangements to settle outstanding

assessed contributions. Sierra Leone has signed a five-year payment plan that will become operational as soon as the first instalment is received. Negotiations are ongoing with a number of Member States, in particular Brazil, Kazakhstan and Tajikistan.

Incentives and disincentives

14. As stated in document IDB.28/10, the Secretariat is closely following issues on this topic on related experience of other organizations of the United Nations system. Relevant documentation is expected to be made available by the Committee on Contributions to the General Assembly by September 2004. The governing bodies will be informed accordingly once information becomes available.

Arrears by former Member States

15. The amounts owed to UNIDO by the United States are as follows:

Assessed contributions, 1994-1996	€69,206,348
Income taxes (under the Tax Reimbursement Agreement)	€ 956,753
Total	€70,163,101

The Secretariat is following up this issue with the Permanent Representative of the United States of America to the United Nations in Vienna to pursue payment.

16. As stated in previous documents (IDB.25/6 and GC.10/12), the Secretariat is closely following developments at the United Nations General Assembly regarding outstanding assessed contributions of the

former Yugoslavia, which had decided to defer consideration thereof to its fifty-ninth session. The arrears amount to €2,081,702. Any decision in this respect taken by the General Assembly will be conveyed to the UNIDO governing bodies for consideration.

**VII. UNENCUMBERED BALANCES OF
APPROPRIATIONS AND
INCOME FROM NEW
MEMBER STATES**

17. Detailed information on the unencumbered balances of appropriations and income from new Member States was provided in documents GC.10/12 and IDB.28/10. In accordance with General Conference decision GC.10/Dec.11, the amount of €436,457 is being utilized by the Secretariat for integrated programmes or country service framework as specified.

**VIII. ACTION REQUIRED OF THE
COMMITTEE**

18. The Committee may wish to consider recommending to the Board the adoption of the following draft decision:

“The Industrial Development Board:

“(a) Takes note of the information provided in document IDB.29/8-PBC.20/8;

“(b) Urges those Member States and former Member States that have not yet paid their assessed contributions, including advances to the Working Capital Fund and prior years’ arrears, to do so without delay;

“(c) Requests the Director-General to pursue his efforts and contacts with Member States to effect the collection of arrears.”
