## II. Regular and operational budgets, 2010-2011

### Regular budget

2. The implementation of the biennial regular budget commenced as planned. As UNIDO has enjoyed a stable and high collection rate of assessed contribution in recent bienniums, allotments have been issued at a full rate of the gross expenditure budget for 2010, except for consultancies, expert group meetings and staff member travel, which were released at 85 per cent in order to allow for priority requests.

3. Therefore, allotments to the value of €79.0 million were issued at the onset of the biennium. These comprised €53.7 million for staff in established posts and €25.3 million for all other expenditure categories.

4. As at 31 March 2010, regular budget expenditures totalled €20.7 million, which represents 26 per cent of the gross expenditure budget for 2010. These

indicators are comparable with those of the previous biennium where as at 31 March 2008, the regular budget expenditure amounted to €19.2 million with 24.5 per cent utilization rate of the gross expenditure budget.

### Operational budget

5. Allotments of €11.2 million value were issued at the start of 2010. This level is equivalent to 100 per cent of estimates included in the approved programme budget.

6. Operational budget expenditures amounted to €2.1 million on 31 March 2010. In the preceding biennium similar expenditures amounted to €2.0 million on 31 March 2008.

7. The delivery of technical cooperation activities during the first quarter of 2010 already exceeded the corresponding level of 2009 and reached \$56.3 million. The income from support costs and other miscellaneous sources for the first three months in 2010 amounted to €4.7 million.

### Buildings management

8. An allotment of €31.8 million for 2010 was issued at the start of the biennium. The buildings management budget is being implemented in accordance with the prevailing workplan. Expenditures as at 31 March 2010 amounted to €11.4 million compared to €11 million in 2008. This represents 35.9 per cent of the buildings management gross expenditure budget. Furthermore, this rate is indicative that a greater portion of utilities and the rental and maintenance obligations of premises are routinely expended in the first quarter of the year.

## III. Assessed contributions
