## Industrial Development Board

### Thirty-eighth session

Vienna, 24-26 November 2010

Item 10 of the provisional agenda

**Matters related to intergovernmental, non-governmental,  
governmental and other organizations**

## **Review of status of cooperation with non-governmental organizations**

### **Note by the Secretariat**

The present document supplements and updates previous reports concerning the status and extent of cooperation of intergovernmental and international non-governmental organizations with UNIDO (documents GC.13/11, IDB.37/11 and Add.1). It also presents more detailed information on NGOs.

## **I. Introduction**

1. At the thirty-seventh session of the Board in May 2010, the Secretariat provided further background information on the status of cooperation with international non-governmental organizations (NGOs) and on the origins of the discussions on the subject matter. In particular, the Secretariat recalled that at the thirty-fourth session of the Board, the Asian Group inquired about the extent of the contribution of NGOs to the accomplishment of the UNIDO objectives. Likewise, at the thirty-fifth session, the Group of 77 and China requested information about the status of bilateral relations with intergovernmental organizations (IGOs) and NGOs.

2. In response to these queries, the Secretariat undertook reviews in January 2009 and from March to April 2010 of the status of cooperation with those organizations. In the first review (GC.13/11 refers), a questionnaire, with covering letter, was sent to 51 intergovernmental organizations, nine of which replied, with only eight of these expressing an interest in pursuing cooperation with UNIDO. Contact was also made with 143 NGOs in consultative status; 104 did not respond or could not be traced, and only 39 had been identified as active in the sense of having attended

sessions of the UNIDO policymaking organs since 2007 or having cooperated with the Secretariat.

3. Following those rather discouraging results, a follow-up review was undertaken from March to April 2010 in which a letter was sent to those NGOs that had not replied in the first review (IDB.37/11/Add.1 refers). At the time of the thirty-seventh session of the Board, the combined results of the two reviews revealed that 84 of 143 NGOs in consultative status with UNIDO had had no interaction with the Organization for at least three years, while 59 were still considered as active.

4. The Secretariat launched the two reviews not only in response to the queries raised by regional groups, but also in an effort to take a more coherent and rational approach to relations with NGOs, inspired by the example of other United Nations system organizations, notably the World Health Organization (WHO) and the United Nations Educational, Scientific and Cultural Organization (UNESCO).

## **II. Current status of cooperation with non-governmental organizations**

5. Following the two reviews, further replies were received by some NGOs. This slightly altered the results already presented in document IDB.37/11/Add.1. To date, 142 NGOs have consultative status with UNIDO, of which:

- (a) 2 NGOs obtained their consultative status in the last three years;
- (b) 47 NGOs have replied to the reviews;
- (c) 10 NGOs have attended sessions of the policymaking organs since 2007;
- (d) 32 NGOs can no longer be traced;

(e) 51 NGOs have not responded to the questionnaire, nor attended any sessions of the policymaking organs since 2007.

The annex to the present document includes all NGOs listed by region and shows contact details as most recently provided by the respective NGO to the Secretariat.

## **III. Legal background**

6. Relations with international NGOs are governed by Article 19 of the Constitution of UNIDO and the Guidelines for the Relationship of UNIDO with IGOs, NGOs and other organizations, as contained in decision GC.1/Dec.41. The same Guidelines (Annex B, paragraph 14) provide a set of criteria that should be applied for granting consultative status to NGOs. According to these criteria the NGO, inter alia, “must be in conformity with the spirit, purposes and principles of the Constitution of UNIDO”. In addition, the NGO “must be actively concerned with areas falling within the competence of UNIDO and shall have an established record in these areas”, and it “must undertake to support actively the work of UNIDO”.

7. The Guidelines for the Relationship with NGOs (Annex B, paragraph 20) also foresee a system of periodic reviews of those NGOs that received consultative status, at least every four years, by the Board. Furthermore, the Board may “conclude that an organization in consultative status, which has not shown interest and goodwill in cooperating with UNIDO during a period of three years, may be deemed not to have sufficient interest to warrant the continuance of such a relationship”. In the context of the two recent reviews, NGOs were informed of the consequences with regard to their consultative status and the possibility of this being discontinued.

8. At the thirty-seventh session of the Board, the Secretariat also provided information on the implications of the discontinuation of the consultative status. This would entail removing the names of inactive NGOs from the list presented in a pre-session document to the General Conference, thereby providing a more concrete and up-to-date picture of UNIDO cooperation with NGOs. Furthermore, these particular NGOs would no longer receive notifications or legislative documents for sessions of the Board or General Conference. It may be noted that, should an NGO whose status was discontinued wish to resume its cooperation in future, it would have to reapply for consultative status, and a new decision to grant such a status would have to be taken by the Board.

#### **IV. Action required of the Board**

9. The Board may wish to take note of the information contained in the present document.
