APPENDIX E

APPOINTMENTS OF EXPERTS BY LISTS OF STATES

In 2011, UNIDO appointed 382 more consultants and experts (3,731) than in 2010 (3,349), which constitutes an overall increase of 11 per cent and which is in keeping with the normal trend between the first and the second year of a biennium. On the other hand, this number is also higher than the number of experts UNIDO employed in 2009, i.e. in the second year of the previous biennium (3,507), which is partly due to the continued growth in the number of national experts (2,013 appointments in 2011 compared with 1,717 in 2010 and 1,692 in 2009) and partly due to the increase in the number of international experts. In overall terms, the increase in the use of external experts in 2011 fits well with the continued growth in the technical assistance delivery of UNIDO, which increased by 8.6 per cent in 2011, as compared to 2010, and reached almost US\$ 167 million.

It should also be noted that UNIDO continued to employ the majority of its consultants and experts from Member States in Lists A and C. In 2011, the proportion of experts from States in these Lists increased by two per cent and reached 62 per cent, while the proportion of experts from States in List B and Others decreased by one per cent each.

INDUSTRIAL STATISTICS

<i>Title</i>	<i>Description</i>
International Yearbook of Industrial Statistics 2011 (ISBN 978 0 85793 022 4)	Annual publication of UNIDO (co-publisher Edward Elgar Publishing Ltd., Cheltenham, UK), which provides worldwide statistics on level, growth and structure of the manufacturing industry and facilitates detailed international comparison relating to manufacturing activities.
UNIDO Industrial Statistics Database at the 4-digit level of ISIC (Revisions 2 and 3) INDSTAT4, 2011 edition	Statistical product in CD-ROM, which contains key industrial statistics at the most detailed level of ISIC comprising 127 manufacturing sectors, supported with user-friendly interfaces for metadata reference, data search, exporting and manipulation. A summary description is available on the UNIDO website www.unido.org/statistics .
UNIDO Industrial Statistics Database at the 2-digit level of ISIC (Revision 3) INDSTAT2, 2011 edition	Third edition of INDSTAT2 in CD-ROM. The database is a unique statistical product with a historical series of industrial data by a single classification code for 163 countries. It provides internationally-comparable business structure statistics over a long period of time. Available at www.unido.org/statistics .
UNIDO Industrial Demand-Supply Balance Database at the 4-digit level of ISIC, 2011 edition	The CD-ROM version of the UNIDO database IDSB contains data on production, foreign trade and apparent domestic consumption at the most detailed level of ISIC comprising 127 manufacturing sectors, supported with user-friendly interfaces for metadata reference, data search, exporting and manipulation. A summary description is available on the UNIDO website www.unido.org/statistics .
World manufacturing value added (MVA) database with gross domestic product (GDP) and population variables – MVA Explorer, 2011 edition	This is the first edition of the UNIDO database on MVA which contains data on population as well as GDP and MVA at current and constant prices. The database is primarily developed to meet the internal needs of the UNIDO research programme.
Statistical Country Brief – 2011 update	Web-based publication of country specific data in comparison with the respective region and the world. Available at www.unido.org/statistics .

APPENDIX M

LIST OF TECHNICAL COOPERATION ACTIVITIES

Introduction

The purpose of the list of UNIDO technical cooperation activities is to provide representatives of Member States with a convenient overview and reference not only for use during discussions at the sessions of the policymaking organs, but also for consultations with the Secretariat throughout the year.

The appendix presents activities in three main categories: (A) consolidated overview of the integrated programmes (IPs), country service frameworks (CSFs) and country programmes (CPs), (B) Montreal Protocol projects and (C) other projects, approved outside the IPs, CSFs, and CPs.

In each category the appendix provides basic data, such as the programme/project title, approval date, planning figure for the IPs/CSFs/CPs, total allotment/budget and total delivery. Titles of the programmes and projects are listed in their original language, as approved by the concerned Government and UNIDO, under the recipient country/area/territory. Each budget figure reflects the actual total allocation available as of 31 December 2011 for the programme or project, rather than the budget during the reporting year. The delivery figure represents the total of expenditures and commitments incurred through 31 December 2011. All values presented are expressed in US dollars.

Except for section A, projects are sorted according to their project number within each country. The appendix also includes listings of regional, global and interregional projects. Multifund projects, where various funding sources exist for the same project, are listed with their respective multiple project numbers, the project title and the total amounts from various funding sources. For umbrella projects – for example those where donor financing covers various projects – only the individual projects are listed. Montreal Protocol projects and other projects approved are broken down by project status, thus grouping the projects according to whether they were completed in 2011, or were ongoing as of 31 December 2011.

It is intended that in future information on technical cooperation activities be made available through the enterprise resource planning (ERP) system (SAP). Reporting on results achieved on a country portfolio level will be possible as of 2013 (document IDB.40/5-PBC.28/5, chapters A and C, refers). The issuance of appendix M in its present form will therefore be phased out.
