UNITED NATIONS  
INDUSTRIAL DEVELOPMENT ORGANIZATION

# **UNIDO Inclusive and Sustainable Industrial Development (ISID) and the Programme for Country Partnership (PCP)**

## UNIDO Strategy

### Inclusive and Sustainable Industrial Development (ISID)

- Every country achieves a higher level of industrialization in their economies, and benefits from the globalization of markets for industrial goods and services.
- No one is left behind in benefiting from industrial growth, and prosperity is shared among all parts of society in all countries
- Broader economic and social growth is supported within an environmentally sustainable framework
- All relevant development actors contribute to the achievement of ISID, as industry generates the wealth needed to address critical social and humanitarian needs

## Inclusive & Sustainable Industrial Development, Program for Country Partnerships (ISID-PCP)

- **Program for Country Partnerships - PCP** - innovative partnership business model developed to realize **Inclusive & Sustainable Industrial Development (ISID)** strategies in developing countries
- 2 pilot countries: **Ethiopia** and **Senegal**
- The main characteristics of this new partnership model in Ethiopia are:
  - **Ownership of the Government:** Joint Steering Committee (JSC) chaired by the MOFED and the National Technical Task Force (NTTF) by the MoI;
  - **Development through extensive consultation between all stakeholders**, including International Financial Institutions, Donor Agencies and the Private Sector;
  - **Alignment with Ethiopia GTP** and implementation within the framework of the Ethiopian Industry Development Strategy (EIDS)
  - **Focus on key industrial sectors** of the country, **Leather, Textile** and **Agro-food** sectors and on **Industrial Zones (IZs)**
  - Development of a **Functional Monitoring Learning Evaluation System**

## Inclusive & Sustainable Industrial Development, Program for Country Partnerships (ISID-PCP)

The PCP is instrumental for the implementation of ISID and the development of a **competitive industrial sector in Ethiopia**, through:

- Funds and technical resources mobilization
- Investment Promotion and FDI
- Technical Expertise and Capacity Building
- Agricultural transformation (key role of private sector) and commercialization of agricultural goods (local and international trade promotion)
- Support to new government initiatives (IAIPs, IZs)
- Inclusive development through support to youth and women
