## GENERAL CONFERENCE

Ninth session  
Vienna, 3-7 December 2001  
Item 10 (b) of the provisional agenda

### FINANCIAL SITUATION OF UNIDO

Report by the Director-General

Provides information on the financial situation of UNIDO, including arrears and the amounts due for distribution, as at 30 September 2001, as well as on significant financial developments that have affected the Organization during the biennium.

#### CONTENTS

I. Regular budget performance report for 2000-2001.....		7
II. Outstanding assessed contributions.....		9

For reasons of economy, this document has been printed in a limited number. Delegates are kindly requested to bring their copies of documents to meetings.

## I. OVERVIEW

1. The financial situation as at 30 September 2001 can be summarized in the following major points:

(a) The overall implementation rate of 78 per cent of the regular budget reflects a similar level to that of the previous bienniums (annex I). The rate is expected to increase to 91 per cent by the end of the biennium;

(b) The operational budget recorded a surplus of \$2.1 million, which includes savings of \$0.4 million on the prior biennium's obligations. This was achieved through various cost-saving measures and other actions taken by the Director-General. The reserve level thus increased from \$1.6 million on 1 January 2000 to \$3.7 million on 30 September 2001. The level is expected to be approximately \$2.5 to 2.7 million by the end of the biennium;

(c) The level of regular budget cash resources (including the Working Capital Fund and unutilized/unencumbered balances of appropriations) was \$16.1 million. In comparison, the cash balance as at 30 September 2000 and 1999 was \$19.4 million and \$17.2 million, respectively. The current cash balance is lower, due partially to the fact that two major contributors had not fully paid their assessed contributions;

(d) The collection rate of 2001 assessed contributions was 62.2 per cent and was unfavourable compared to the 2000 and 1999 rates of 77.4 and 69.5 per cent, respectively. As mentioned in subparagraph (c) above, the lower rate for 2001 results from partial payments by two major contributors. Had these contributions been received, the collection rate would have been 87.9 per cent;

(e) The collection rate of prior years' arrears, as compared to the current year's assessments, was 16.5 per cent. The collection rates as at 30 September 2000 and 1999, as compared to the assessments of those years, were 11.4 and 10.3 per cent, respectively;

(f) Outstanding assessed contributions amounted to \$117.8 million (including \$61.7 million owed by the United States of America). The outstanding amounts as at 30 September 2000 and 1999 were \$110.4 million and \$114.5 million, respectively (revalued at the September 2001 rate of exchange);

(g) The Working Capital Fund is at the level of \$6,610,000; however, an amount of \$4,171 was outstanding as of 30 September 2001. Furthermore, a contribution amounting to \$1,719 was outstanding from a new Member State;

(h) Since the issuance of document IDB.22/8, there has been no significant progress in the implementation of recommendations of the discussion group on timely payment of assessed contributions. Only one plan (Yemen) is under implementation. Currently, payment plans are under negotiation with the following countries: Brazil, Nicaragua and Ukraine (IDB.24/Dec.3). Under the incentive scheme, an amount of \$488,197 (interest income in excess of budgetary estimates) will be due for distribution to eligible Member States on 1 January 2002;

(i) Unutilized/unencumbered balances of appropriations amounting to \$793,748 relating to the bienniums 1992-1993 and 1996-1997 were available for distribution to Member States on 1 January 2001. Credits were given to eligible Member States when their obligations for the year 2001 were calculated;

(j) A provisional amount of \$5,375,693 relating to the unutilized/unencumbered balances of appropriations for the bienniums 1992-1993, 1996-1997 and 1998-1999, as well as an amount of \$315,491 from new Member States has been received. Unless decided otherwise by the Conference, these amounts and the interest due for distribution (\$488,197, subparagraph (h) above)—a total amount \$6,179,381—will be due for distribution to Member States on 1 January 2002;

(k) The implementation of the new financial system is progressing and major features are expected to be in place before the introduction of the euro.

2. A conference room paper will provide information on the current status of assessed contributions and voting rights, updated to 30 November 2001.

## II. REGULAR AND OPERATIONAL BUDGETS

3. The status of the regular and operational budgets, as at 30 September 2001, was as follows:

(a) The status of the regular budget for the period 1 January 2000 to 30 September 2001 is presented in annex I (tables 1 and 2), by major programme and major object of expenditure. The overall implementation rate of 78 per cent of gross budgeted expenditures reflects a similar level to that of the preceding biennium. The rate of implementation is expected to increase to 91 per cent during the final quarter of the biennium due to accelerated implementation of programmes, particularly in respect of the Regular Programme for Technical Cooperation and the Industrial Development Decade for Africa (IDDA). Further payments and other budgetary expenditures relating to conference services and common services will be incurred before the end of the year in connection with the General Conference. The net increase in the post adjustment multiplier of 9.73 per cent for

Professional salaries in effect from 1 July 2001 can be absorbed this year from savings due to the higher-than-budgeted vacancy rate in the first year of the biennium. Additional cost reductions are envisaged under travel, general operating costs, supplies and materials, acquisition of furniture and equipment and other costs relating to joint and common services to maintain financial stability;

(b) To strengthen the level of the operational budget reserve, operational budget expenditures were contained through maintaining a higher-than-budgeted vacancy factor. As a result of this measure, the operational budget recorded a surplus of \$2.1 million. The reserve level thus increased from \$1.6 million on 1 January 2000 to \$3.7 million as of 30 September 2001, as shown in table 1. However, the level for the end of the biennium is expected to be approximately \$2.5 to 2.7 million, due to an expected increase in expenditure in the remaining period of the biennium.

**Table 1. Operational budget reserve**  
(Millions of US dollars)

Operational budget reserve as at 1 January 2000	1.62
Savings on liquidation of prior biennium obligations	0.42
Income (1 January 2000 to 30 September 2001)	<u>16.75</u>
<i>Subtotal</i>	<i>18.79</i>
Expenditures (1 January 2000 to 30 September 2001)	<u>(15.11)</u>
Operational budget reserve as at 30 September 2001	<u>3.68</u>

### III. ASSESSED CONTRIBUTIONS

#### Collections

4. A total of 58 Member States, including 8 least developed countries, have made full payments and 8 Member States have made partial payments of their 2001 assessed contributions. Collections in the year 2001, including applications of overpayments and other adjustments, broken down by List of States, are shown in table 2.

#### Outstanding contributions

5. Annex II to the present document provides detailed status of assessed contributions outstanding as at 30 September 2001, including the status of voting rights of each Member State, and the minimum payment required to gain voting rights. Table 3 provides information on outstanding contributions as at 30 September 2001, and on the same date in 2000 and 1999, revalued for comparison.

**Table 2. Collections, January to September 2001**  
(Millions of US dollars)

List of States*	Current year	Prior years	Total

\* As contained in document IDB.24/23.

#### IV. VOTING RIGHTS

7. As indicated in annex II, the voting rights of 57 Member States were suspended as at 30 September 2001 in accordance with Article 5.2 of the Constitution and financial regulation 5.5(b). The number of Member States with no voting rights of the various governing bodies is shown in table 5. For comparison, the status as at 30 September 2000 and 1999 is also shown in the table. The improvement in the status of voting rights is notable.

**Table 5. Suspension of voting rights as at 30 September**

	Number of Member States with no voting rights		
	2001	2000	1999
General Conference	57	60	67
Industrial Development Board	1	5	5
Programme and Budget Committee	1	3	3

8. In order to restore their voting rights, these Member States must pay a minimum combined amount of \$24,337,728 (annex II).

#### V. IMPLEMENTATION OF RECOMMENDATIONS OF THE GROUP ON TIMELY PAYMENTS

9. Detailed information was provided in document IDB.22/8 of 14 April 2000 on the implementation of the measures recommended by the open-ended discussion group on timely payment of assessed contributions. Of the 15 payment plans drawn up since that time, the sole plan in operation is with Yemen, which has since paid outstanding contributions up to 2000 (partial). Plans are currently under negotiation with Brazil, Nicaragua and Ukraine (IDB.24/Dec.3). Member States have been regularly informed and reminded of their obligations and the possibility to settle arrears through payment plans. Furthermore, informal consultations have been held on an individual basis with a number of Member States.

##### Arrears of the United States of America

10. The amounts owed to UNIDO by the United States are as follows:

Assessed contributions for 1994 to 1996	\$61,678,302
Income taxes (under the Tax Reimbursement Agreement)	\$ 849,107

11. The above assessed contribution amount includes an adjustment amounting to \$35,826 resulting from the

distribution of 1992-1993 unutilized/unencumbered balances of appropriations.

12. UNIDO has taken up the matter on a number of occasions with the Permanent Representative of the United States of America to the United Nations (Vienna) and has expressed serious concern that the outstanding amounts have not yet been settled. On 20 April 2001, UNIDO was informed by the Permanent Representative that the Government is unable to provide a specific time frame when these payments will be made, and that current legislation does not provide funding for payment of the obligations to UNIDO. Furthermore, they are also not in a position to predict when a more favourable circumstance will occur, and that the present uncertainty does not in any manner diminish the Government's commitment to meeting its financial obligations to UNIDO.

##### Incentives for early payment

13. Information on incentives for early payment was also reported in documents IDB.22/8 and IDB.24/8. Pursuant to decision GC.8/Dec.10, interest income in excess of budgetary estimates for 1999 and 2000 in the amount of \$488,197 is available for distribution to eligible Member States (in accordance with the S curve—described in document IDB.21/4), or to utilize this amount for purposes specified by the eligible Member States. Since extensive administrative work is required to solicit from each eligible Member State the purpose of utilization of its share (i.e. whether the amount should be credited to assessed contributions, transferred to a project or integrated programmes, or utilized for any other purpose specified by the Member State), a simpler solution needs to be elaborated for the distribution of this amount. Unless decided otherwise by the Conference, the amount will be distributed to eligible Member States on 1 January 2002.

#### VI. UNUTILIZED/UNENCUMBERED BALANCES OF APPROPRIATIONS AND INCOME FROM NEW MEMBER STATES

##### Amount approved for the integrated programmes

14. As reported in documents IDB.22/8 and IDB.23/5, the total amount available for the integrated programmes from the 1992-1993 and 1996-1997 unutilized/unencumbered balances of appropriations amounted to \$4,405,323. In accordance with resolution GC.8/Res.4, this amount was placed in a special account for a period of 18 months, and has been utilized for the implementation of the integrated programmes. Table 6 provides the status of the special account as at 30 June 2001 (i.e. after 18 months) and as at 30 September 2001.

**Table 6. Unutilized/unencumbered balances of appropriations**  
(Millions of US dollars)

	As at 30 June 2001	As at 30 September 2001
Balance available for integrated programmes on 1 April 2000	4.405	4.405
Disbursements	(1.901)	(2.801)
Obligations	(2.563)	(1.660)
Programme support costs	<u>(0.202)</u>	<u>(0.202)</u>
Unspent/(overspent) balance	<u>(0.261)</u>	<u>(0.258)</u>

15. Financial regulation 4.2(b) requires that appropriations shall remain available for 12 months following the end of the fiscal period to which they relate, to the extent that they are required to discharge obligations in respect of goods supplied and services rendered during that fiscal period and to liquidate any other outstanding obligations of that fiscal period. In this case, the fiscal period ended on 30 June 2001; thus the funds under the special account shall remain available until 30 June 2002. Experience shows that some obligations may have to be revised or cancelled for a number of reasons during this period; thus the final status of this account will only be known on 30 June 2002, when it is expected that there will be no overspent balance.

#### **Amount distributed to Member States on 1 January 2001**

16. During 2000, a total amount of \$793,748 was paid by Member States against the 1992-1993 and 1996-1997 outstanding assessed contributions. In accordance with financial regulations 4.2(b) and (c), that amount was due for distribution in January 2001 to those Member States that had fully paid their assessed contributions for the respective bienniums. Therefore, credits were given to eligible Member States in accordance with their scale of assessments for the respective biennium when the assessed contributions for the year 2001 were calculated.

#### **Amount available for distribution to Member States on 1 January 2002**

17. As at 30 September, the following provisional amounts of unutilized/unencumbered balances of appropriations relating to the bienniums 1992-1993, 1996-1997 and 1998-1999 are available for distribution to Member States on 1 January 2002:

	US\$
1992-1993	71,508
1996-1997	1,169,906
1998-1999	<u>4,134,279</u>
<b>Total</b>	<b><u>5,375,693</u></b>

18. The large amount has resulted from significant payments (over \$100,000) received from the following Member States against their outstanding contributions: Argentina, Guatemala, Indonesia, Iran (Islamic Republic of), Libyan Arab Jamahiriya, Portugal, Russian Federation, Saudi Arabia and Venezuela. Unless otherwise decided by the Conference, the above amounts will be due for distribution in January 2002, in accordance with financial regulations 4.2(b) and (c), to those Member States that have fully paid their assessed contributions for the above bienniums. Such credits will be calculated in accordance with the scale of assessments of the respective biennium.

#### **Income from new Member States**

19. During the current biennium, the Organization received a sum of \$315,491 from new Members. In accordance with financial regulations 4.2 and 5.2(c), this amount is also required to be distributed to Member States on 1 January 2002.

### **VII. IMPLEMENTATION OF A NEW FINANCIAL SYSTEM**

20. As reported in documents IDB.22/8 and IDB.24/8, the implementation of a new Financial Performance Control System (FPCS) for UNIDO was undertaken during 2000. As planned, the first stage of the new system was completed by the end of 2000 within the approved budget and the time frame foreseen at the start of the project. The necessary features required for moving to the euro on 1 January 2002 have been taken into account during the development and implementation of the system. The new system was used for the preparation of the programme and budget proposals for 2002-2003, as well as for the processing of all accounting and financial transactions since the beginning of 2001. Since some necessary features that were foreseen for the second development stage during 2001 were not yet in place, the decision was taken to run the old mainframe system in parallel until the end of 2001 to ensure that complete financial information is available for the preparation of the financial statements for the biennium and other required reports. Furthermore, the two systems are being reconciled for verifying the design of the new FPCS and also to assist in fine-tuning the system.

21. During the second stage of implementation, the remaining features—such as support cost calculation, required reporting facilities and other refinements based on experience gained during 2001—as with any major

undertaking, are being systematically addressed to ensure that the new system meets the requirements of all stakeholders. It is expected that the new FPCS will lead to greater efficiency in the management of programmes and projects, as well as the Organization's ability to better report on various activities.

#### **VIII. ACTION REQUIRED OF THE CONFERENCE**

22. The Conference may wish to consider adopting the following draft resolution:

“The General Conference:

“(a) Takes note of the information provided in document GC.9/10;

“(b) Urges those Member States and former Member States that have not yet paid their assessed contributions, including advances to the Working Capital Fund and prior years' arrears, to do so without delay;

“(c) Requests the Director-General to pursue his efforts and contacts with Member States to effect the collection of arrears.”

Annex I

REGULAR BUDGET PERFORMANCE REPORT FOR 2000-2001

Table 1. Status of implementation by major programme, 1 January 2000 to 30 September 2001  
(In thousands of US dollars at US\$1 = AS 12.90)
