Early actions undertaken by UNIDO 1

Actions within the Montreal Protocol technical domain

- Vienna talks on Kigali amendment!
- Proposed DEMO projects for IOC and ICC (ExCom Document 79/23)
- Proposals to K-CEP (DEMO projects under negotiation and discussion)
- EU project in Latin America, on soft component in handling low-GWP refrigerants, including upgrade of servicing sector, training of technicians, final disposal (Grenada, Mexico and Venezuela)
- CTCN in Chile in food processing sector: promotion of low and 0 GWP and energy efficient refrigerants

UNIDO is ready to be ready

Early actions undertaken by UNIDO 2

More important, UNIDO is working to expand the scope of its services, integrating programs and within the Organization:

- Development of concept on cold chain: expansion and optimization of refrigeration in the cold chain (various donors), in cooperation with AGRO and ENE departments
- Engagement with development banks for the support of non-eligible costs
- Strengthening cooperation with EE policies in our projects

Think out of the box
