I. SPEAKERS

Mr LI YONG (China)

Director General, UNIDO

Mr. Li Yong has had an extensive career as a senior economic and financial policymaker. As Vice-Minister of Finance of the People's Republic of China and a member of the Monetary Policy Committee of the Central Bank for a decade, Mr. Li has long been involved in setting and harmonizing fiscal, monetary and industrial policies and in supporting sound economic growth in China.

Throughout his career, he has advocated financial-sector reform and prompted major financial institutions to establish corporate governance, deal with toxic assets and strengthen risk management. Mr. Li prioritizes fiscal and financial measures to promote agricultural development and small and medium-sized enterprises, both of which represent cornerstones for creating economic opportunities, reducing poverty and promoting gender equality. He played a key role in China's cooperation with multilateral development organizations, such as the World Bank Group and the Asian Development Bank.

REPRESENTED BY:

Mr. Hiroshi Kuniyoshi (Japan)

Deputy to the Director General, UNIDO

Mr. Hiroshi Kuniyoshi is Deputy to the Director General of the United Nations Industrial Development Organization (UNIDO) since April 2017.

In April 1984, he joined the Government of Japan's Ministry of International Trade and Industry (now known as METI), where he planned and implemented a variety of industrial and technology policies in various sections, including the Natural Resources and Energy Agency, the Small and Medium Enterprises Agency and the Kansai Bureau.

In August 2006, Mr. Kuniyoshi was appointed Professor at Tokyo Institute of Technology, where he conducted research and education in policy studies related to industry, technology and innovation.

In September 2012, he was appointed Executive Director of the New Energy and Industrial Technology Development Organization (NEDO), one of Japan's largest public organizations in research and development. At NEDO, he was in charge of global collaborative projects for the development of low-carbon technologies such as renewable energy, battery storage and smart grids. He also served as Vice- Chairman of the Global Smart Grid Federation, a world-wide network of national associations for smart grids.

Mr. Hiroshi Kuniyoshi holds a Master's degree in International Relations from the University of Cambridge and a Ph.D. in Energy Science from Kyoto University.
