

Textile Recycle

(Sustainability)

1– Post Consumer

2– Post Industry.

Post Consumer

Causes:

- Worn-out.
- Fast Fashion.

Post Consumer

Market Status

- Consumer is aware of the environmental impact but not ready yet for the change. Maybe because it is not yet marketed properly.
- Industry is not mature yet.
- A lot of products produced of recycled material is in the market without labeled as regenerated/Sustainable.
- Trade is still mostly Interested in it if there is a price advantage.

Advantage

- Yarn produced is colored- No dyeing needed:
 - Less Chemicals.
 - Less water.

- In Certain countries they burn the textile waste. this causes:
 - Increase of Carbon Footprint.
 - Danger of fire.

Textile ~~Waste~~.

Business Opportunity

NEW COMMODITY

THANK YOU
