

UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANISATION

JOB PROFILE

FUNCTIONAL TITLE:	INTERN
ORGANIZATIONAL UNIT:	Country Office in the Philippines

ORGANIZATIONAL CONTEXT

UNIDO is the specialized agency of the United Nations that promotes industrial development for poverty reduction, inclusive globalization and environmental sustainability. Its mission is to promote and accelerate inclusive and sustainable industrial development (ISID) in developing countries and economies in transition. The relevance of ISID as an integrated approach to all three pillars of sustainable development is recognized by the recently adopted 2030 Agenda for Sustainable Development and the related Sustainable Development Goals (SDGs), which will frame United Nations and country efforts towards sustainable development in the next fifteen years. UNIDO's mandate in SDG-9, calls for the need to "Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation". Accordingly, the Organization's programmatic focus is structured in three thematic priorities: * Creating shared prosperity * Advancing economic competitiveness * Safeguarding the environment.

UNIDO delivers its services through the following four complementary and mutually supportive core functions: (a) technical cooperation activities; (b) analytical and policy advisory services; (c) standard-setting and compliance and (d) convening and partnership role.

The Intern shall work under the direct supervision and guidance of the UNIDO Country Representative in Philippines.

UNIDO COUNTRY OFFICE IN PHILIPPINES

UNIDO's Country Programming Framework for Inclusive and Sustainable Industrial Development (2018-2023) in the Philippines

The Country Programme (CP) is designed to enhance UNIDO's support to the Government of the Republic of the Philippines to implement a roadmap towards Inclusive and Sustainable Industrial Development (ISID) as stated in the Lima Declaration adopted on 02 December 2013 during the 15th session of General Conference of UNIDO. In doing this, UNIDO has aligned the priorities of the CP to the Philippine Development Plan 2017 - 2022, building on the achievements of past projects and programmes, as well as the UN Partnership Framework for Sustainable Development (2018-2023). UNIDO's interventions at the country level will focus on three mutually-reinforcing components: 1.) Supporting inclusive, sustainable, and innovation-led industrialization, 2.) Fostering green and resilient industrial communities; and, 3.) Cultivating effective partnerships for ISID. Cross-cutting themes around developing infrastructure, policy and institutional capacity, human capital, and gender, will complete the building blocks for promoting ISID.

Philippine Development Plan 2017-2022

The new Philippine Development Plan 2017-2022 PDP is the first plan that is based on an exhaustive survey of the Filipinos vision and aspirations for the country as well as family life and community. The Filipino envisions a stable, prosperous, healthy, smart and innovative society underpinned by a high-trust society, culturally diverse and resilient given the challenges from a changing climate.

The new PDP 2017-2022, draws from lessons and challenges from the past. Sound macro-economic policies and a stable political environment sustained economic growth. It also recognizes these were not sufficient to lift the poor out of poverty. The new PDP identified sectoral and geographical constraints faced by the poor that weakens their participation in the country's economic progress. The national capital region and its neighboring provinces benefitted the most from the sustained average GDP of 6.1% while many parts of the Mindanao region exhibited the highest poverty rate.

In addressing the inequalities impacting the Filipino people in the country's road to prosperity, the tasks to sustaining the economic growth and controlling negative environmental consequences, the new PDP has three pillars or programmatic areas to tackle the aforementioned constraints. Pillar 1 - "Enhancing the Social Fabric" will rely on a

responsive governance towards effective, meaningful working relationship between the population and the bureaucracy. Pillars 2 to 3 are geared towards increasing economic opportunities for all. Pillar 2 – “Reducing Inequality” will expand economic opportunities in the Agriculture, Forestry and Fisheries sector. Pillar 3 - “Increasing Growth Potential” will continue the economic progress in the Industry and Service sectors from the previous 6 years.

GENERIC DUTIES AND RESPONSIBILITIES
