"The Programme & Budget Committee unanimously approved UNIDO’s draft budget for the years 2024-2025. The unanimous vote is a great sign of confidence in all of us. Confidence in our work, in our reform process, in our newly focused goals. I am very grateful to the Member States, as I am also very grateful to all of our personnel. The agreement now paves the way for UNIDO to do more with more, in our efforts to be a central platform for global knowledge and technology transfer for sustainable industrial development."
